<b>RESEARCH REPORTS</b>	
<b><u>MICROBEAM DEVELOPMENT AND EXPERIMENTAL STUDIES</u></b>	
<b>Microbeam Writing on a Cell at RARAF</b>	
Alan W. Bigelow, Helen C. Turner, Yanping Xu, Gerhard Randers-Pehrson and David J. Brenner .....	10
<b>Formation of DNA Repair Foci using RARAF's UV Microspot Irradiator</b>	
Alan W. Bigelow, Charles R. Geard, Gerhard Randers-Pehrson and David J. Brenner .....	10
<b>UV Microspot Resolution: Columbia University Crown Logo</b>	
Alan W. Bigelow, Helen C. Turner, Guy Y. Garty, Yanping Xu, Gerhard Randers-Pehrson and David J. Brenner .....	12
<b>Proton Induced Soft X-ray Microbeam at RARAF</b>	
Andrew Harken, Gerhard Randers-Pehrson and David J. Brenner.....	13
<b>Preliminary Studies of Flow-And-Shoot Technology (FAST) for the Microbeam</b>	
Guy Garty, Michael Grad, Brian K. Jones, Yanping Xu, Jie Xu, Gerhard Randers-Pehrson, Daniel Attinger and David J. Brenner.....	14
<b>Neutron Microbeam</b>	
Yanping Xu, Gerhard Randers-Pehrson, Stephen A. Marino and David J. Brenner .....	16
<b>Simultaneous Immersion Mirau Interferometry</b>	
Oleksandra V. Lyulko, Gerhard Randers-Pehrson and David J. Brenner.....	17
<b>Microbeam Induced Stress Response in the <i>C. elegans</i> Nematode</b>	
Antonella Bertucci, Roger D. J. Pocock, Guy Garty and David J. Brenner.....	19
<b><u>BYSTANDER STUDIES</u></b>	
<b>Radiation-induced Bystander Signaling Pathways in Human Skin Fibroblasts: A Role for ATM and IL-33 in the Signal Transmission</b>	
Vladimir N. Ivanov, Hongning Zhou, Shanaz A. Ghandhi, Sally A. Amundson and Tom K. Hei .....	21
<b>Mutations in Succinate Dehydrogenase Subunit C Increase Radiosensitivity and Bystander Responses</b>	
Hongning Zhou and Tom K. Hei.....	26
<b>Role of Bystander Cells after Irradiation with a Low a Dose of Alpha Particles</b>	
Alexandre V. Mezentsev and Sally A. Amundson .....	28
<b>Cell Communication Is a Significant Component of the Early Gene Expression Response in Bystanders</b>	
Shanaz A. Ghandhi and Sally A. Amundson.....	32

**Induction of Bystander Responses by Si490 Ions**

Brian Ponnaiya, Masao Suzuki, Chirzuru Tsuruoka, Yukio Uchihori and Tom K. Hei ..... 34

**Genomic Instability in Single Cell Derived Clones Following Exposure to Si490 Ions**

Brian Ponnaiya, Tom K. Hei and Charles R. Geard ..... 36

**MOLECULAR STUDIES**

***DNMT1* Knockdown in Prostate Cancer Cells Reduces *HRAD9* Expression and Tumor Formation in Nude Mice**

Aiping Zhu, Xiangyuan Wang and Howard B. Lieberman ..... 39

***DNMT3B* siRNA Downregulates *HRAD9* Expression in Prostate Cancer Cells**

Corinne Leloup, Aiping Zhu and Howard B. Lieberman ..... 41

**Radiosensitivity to High Energy Iron Ions is Influenced by Heterozygosity for *ATM*, *RAD9* and *BRCA1***

Lubomir B. Smilenov, Guangming Zhou, Howard B. Lieberman, Thomas Ludwig and Eric J. Hall..... 42

**Transforming Growth Factor- $\beta$  Induced Protein (TGFBI) Suppresses Mesothelioma**

**Progression through the Akt/mTOR Pathway**

Gengyun Wen, Mei Hong, Bingyan Li, Michael A. Partridge, Burong Hu, Gloria M. Calaf and Tom K. Hei..... 46

**TGFBI Deficiency Leads to Aberrant CREB and Cyclin D1 Activations by**

**Enhanced Protein Kinase an Activity**

Ping Lu, Ye Zhang, Tom K. Hei and Yongliang Zhao ..... 47

**Alterations in Gene Expression Levels in Individual Cells in Response to Ionizing Radiation**

Brian Ponnaiya, Sally A. Amundson, Shanaz A. Ghandhi, Lubomir B. Smilenov,  
Charles R. Geard and David J. Brenner ..... 50

**Histone Gene Expression in Irradiated Cells**

Jarah A. Meador and Sally A. Amundson ..... 52

**DNA Repair in Human Adipose Tissue-derived Stem Cells**

Jarah A. Meador and Adayabalam S. Balajee..... 55

**Hypoxia-Induced Radioresistance is Associated with 53BP1 Upregulation and Facilitated Turnover**

Alexander V. Kofman, Jarah A. Meador and Charles R. Geard..... 57

**Mitochondria-derived Reactive Intermediate Species Mediate Asbestos-induced Nuclear DNA**

**Mutagenesis and Oxidative Stress-Responsive Signaling Pathways**

Sarah XL. Huang, Michael A. Partridge, Shanaz A. Ghandhi, Evelyn Hernandez-Rosa,  
Mercy M. Davidson, Sally A. Amundson, Sindu Krishna and Tom K. Hei ..... 60

**Asbestos Induces Mitochondrial DNA Mutation and Functional Alteration: Potential Source of**

**Intracellular Oxidants and Implications for Mechanism of Mutagenicity**

Sarah X.L. Huang, Michael A. Partridge, Evelyn Hernandez-Rosa, Mercy M. Davidson and Tom K. Hei ..... 66

**CELLULAR STUDIES**

**Human Endothelial Cells in 3D Model Vessel Systems: Differential Effects of High and Low LET Space Radiations**

Peter Grabham, Burong Hu, Preeti Sharma and Charles R. Geard ..... 70

**Catechol Estrogen as a Biomarker for Mammary Gland Cancer**

Gloria M. Calaf and Fernando Garrido..... 73

**POPULATION-BASED RADIOLOGY OR RADIOTHERAPY ORIENTED STUDIES**

**Cancer Risks after Radiation Exposure in Middle Age: Mechanisms and Societal Implications**

Igor Shuryak, Rainer K. Sachs and David J. Brenner..... 76

<b>A Model of Interactions between Radiation-Induced Oxidative Stress, Protein and DNA Damage in <i>Deinococcus Radiodurans</i></b>	
Igor Shuryak and David J. Brenner .....	77
<b>Radiation Dose Measurements in Phantom from Coronary CT Angiography Performed with First Generation Volume Scanner</b>	
Carl D. Elliston, Andrew J. Einstein, Andrew E. Arai, Marcus Y. Chen, Rich Mather, Gregory D. Pearson, Robert L. DeLaPaz, Edward L. Nickoloff, Ajoy Dutta and David J. Brenner.....	79
<b><u>CENTER FOR HIGH-THROUGHPUT MINIMALLY-INVASIVE RADIATION BIODOSIMETRY (U19)</u></b>	
<b>The Columbia Center for High-Throughput Minimally-Invasive Radiation Biodosimetry</b>	
David J. Brenner.....	82
<b>High-Throughput mBAND</b>	
Alan W. Bigelow, Guy Y. Garty, Antonella Bertucci, Charles R. Geard and David J. Brenner .....	83
<b>Evaluation of Effect of Genotoxic Drugs on Peripheral Blood Gene Expression Profiling for Radiation Biodosimetry with Cancer Patients</b>	
Sunirmal Paul and Sally A. Amundson .....	85
<b>Optimizing the <math>\gamma</math>-H2AX Assay for High Throughput Automated Biodosimetry</b>	
Helen C. Turner, David J. Brenner, Youhua Chen, Antonella Bertucci, Jian Zhang, Hongliang Wang, Oleksandra V. Lyulko, Yanping Xu, Julia Schäfer, Nabil Simaan, Gerhard Randers-Pehrson, Y. Lawrence Yao, Sally A. Amundson and Guy Garty.....	88
<b>An Online PC Cluster for High Performance Computing of Bio-Physics Project</b>	
Yanping Xu and Helen C. Turner.....	90
<b>Upgrades to Rapid Automated Biodosimetry Technology (RABIT)</b>	
Youhua Chen, Jian Zhang, Hongliang Wang, Guy Garty, Gary W. Johnson, Nabil Simaan, Y. Lawrence Yao and David J. Brenner .....	92
<b>A Rapid Autofocus System for High Speed Imaging</b>	
Guy Garty, Nina Bahar, Gerhard Randers-Pehrson and David J. Brenner .....	95
<b>Automated Image Analysis for <i>Micronuclei Assay in RABIT</i></b>	
Oleksandra V. Lyulko, Guy Garty, Helen C. Turner, Gerhard Randers-Pehrson and David J. Brenner .....	96
<b>Development of a Button-Type Personal Dosimeter</b>	
Stephen A. Marino, Gary W. Johnson and David J. Brenner .....	98
<b>THE RADIOLOGICAL RESEARCH ACCELERATOR FACILITY – an NIH-Supported Resource Center</b>	
<i>Dir., David J. Brenner, PhD, DSc; Assoc. Dir. Gerhard Randers-Pehrson, PhD; Mnger., Stephen A. Marino, MS</i>
